DSI is an [engineering consulting firm](#) with a unique breadth of capabilities that allow us to provide you with the right industrial engineering solutions for your business. With over 35 years of engineering consulting experience in the manufacturing/ industrial and warehousing/distribution markets, we understand what it takes for your business to move forward.

From small continuous improvement projects to multi-billion dollar industrial facilities – our technical talents, lean principles, engineering services, and organized project approach help solve our client's toughest challenges and positively affect operations, quality, and the bottom line.

Highlights from the December 03 Funding and Program Support Information Session.
