

# Health and Safety Excellence program

## COVID-19 Support

### We are here to help

We know you are taking steps to address immediate pandemic related priorities, resume operations and remain open. The Health and Safety Excellence program can help:

- ✓ **Support and guidance** from a WSIB-approved provider
- ✓ **Pandemic readiness materials**, to help you meet the challenges of operating safely during a pandemic
- ✓ **Reduce COVID-19 related hazards** and foster a health and safety culture in your workplace
- ✓ **Rebates on premiums** and money saved by improving your safety experience (Please click [here](#) to access our rebate calculator)
- ✓ **Recognition** to show employees, customers, and investors your commitment to health and safety
- ✓ **Opportunities to network** and share best practices with other like-minded businesses

### Start your journey with the Health and Safety Excellence program

#### Step 1

#### Select and register with a WSIB-approved provider

Visit our program website at <https://www.wsib.ca/en/health-and-safety-excellence-program-join-our-program> to view provider profiles and choose a provider that best meets your needs.

Contact us for help in getting started with a provider:  
[healthandsafetyexcellence@wsib.on.ca](mailto:healthandsafetyexcellence@wsib.on.ca)

#### Step 2

#### Complete the online health and safety assessment

Your provider will send you a link to access our online platform to complete the health and safety assessment.

The assessment identifies gaps in your current health and safety program and suggests topics your workplace can implement.

Please visit <https://www.wsib.ca/en/healthandsafety> or contact us at [healthandsafetyexcellence@wsib.on.ca](mailto:healthandsafetyexcellence@wsib.on.ca)

## Step 3

# Select 1 – 5 health and safety topics to implement

While our program boasts 36 health and safety topics to help build a comprehensive health and safety program, the **five topics below address immediate pandemic related priorities** and can help your business safely resume operations and remain open.

Topics	How it can help you address COVID-19
Risk assessment	Assess COVID-19 related health and safety risks in your workplace, including any new or modified operations or work locations
Control of hazards	Control the spread of COVID-19 through implementation of engineering controls, administrative controls, safe work practices, and personal protective equipment
Emergency prevention & preparedness	Ensure your organization is ready to address challenges resulting from COVID-19 and is pandemic ready
Emergency response	Define a work plan to address COVID-19, prevent spread, and resume your business operations safely
Workplace health promotion	Empower your staff and support employee mental health through the pandemic and foster a more engaged and resilient workforce
