

# LOOKING TO INSPIRE THE NEXT GENERATION?

## BECOME A *FIRST*® ROBOTICS COMPETITION JUDGE

### Experience & Skills Needed:

- *FIRST* experience not required
- Suggested Age: 23+, Minimum Age: 19
- Strong assessment skills
- Strong communication skills
- Willing to work as a member of the judging team
- 2 days of time commitment is required

The *FIRST* Robotics Competition gives high school students and their adult mentors the opportunity to work and create together to solve a common problem. Challenged to design and build a robot using a standard "kit of parts" and within a common set of rules to play a sophisticated field game – with limited time – brings out the best in students and adults alike. The robot "game" changes every season and is always exciting. It's as close to real-world engineering as a student can get.

**Scan the QR Code or click here to see the events and if you are interested in Judging an FRC event.**

**Contact Arti Javeri for any questions  
[arti.javeri@firstroboticscanada.org](mailto:arti.javeri@firstroboticscanada.org)**

**More information about Judging Dates/Times will be provided. Judging could be a combination of virtual and/or in-person based on the Judging role you will perform.**
